

SUSTAINABILITY HOMEWORK PROJECT

Sustainability is the idea that humans must interact with the environment in a way that ensures there will be enough resources left for future generations.

YOU HAVE 4 COMPULSORY PIECES OF HOMEWORK TO COMPLETE, EACH HAS HOMEWORK IS SET ON TUESDAY 7TH JANUARY AND IS DUE IN ON FRIDAY 20TH FEBRUARY 2025.

According to Shropshire Council website, you may place these items in your recycling bin. Across 5 days, make sure all the people in your household are putting these items in the recycling bin and not in the general waste bin.

We accept...

- Aerosols
- Drink cans
- Foil
- Plastic pots, tubs, trays and bottles
- Food tins
- Sweet tins
- Bottle tops
- Metal tops
- Glass bottles and jars

Design and create a sculpture out of recyclable materials to help people understand what can be recycled.

Create a 'Save Our Planet' poster, to inform others on how to recycle, lower energy consumption, upcycling and other ideas on how to reduce our carbon footprint.

Greta Thunberg is a climate change activist. Research her work, ideas and impact, in any presentation format that you like.
