Project – What is it like to live in Shanghai?

Choose and complete at least one of the projects listed below:

Create a collage of Shanghai's skyline. What do you think the buildings in Shanghai might look like? Can you build a tall bright city?

Listen to a short piece of traditional Chinese music and create a dance or draw how it makes you feel. How does the music make your body want to move?

Research and draw animals that live in or near Shanghai. If you visited the zoo in Shanghai, which animals might you see?

**Project Deadline:
Thursday 26th May**

Taste something Chinese at home and create a review. What did it taste like? Did you use chopsticks? Would you try it again?

Try writing your name using Chinese characters. What does your name look like in Mandarin? Can you decorate it to show your personality?

Walk around your local area. What can you see? Draw or write the human features (made by people) that you can see and the physical features (naturally occurring) that you can see.
