

Cleobury Mortimer Primary School: Cubs

Curriculum Subject Intent

Enjoying and Achieving Together

Links to our Curriculum Drivers

Ambition – We will challenge ourselves to achieve our best in all areas of learning, taking pride in our work and celebrating success.

Commitment – We will develop a positive attitude to learning, showing perseverance, resilience and always trying our best.

Creativity – We will use our imagination, ask questions and explore new ideas through a range of exciting learning experiences.

Integrity – We will demonstrate honesty, kindness and respect towards others, making positive choices both in and out of the classroom.

British Value

We are introducing the term British Values and learning about the rule of law.

Enrichment

- Exploring our local environment in relation to science
- Learning about the continent of Africa.

As Writers and readers we will read and enjoy a book each week, using the texts to inspire our writing. We will focus on building structured sentences using adjectives and expanded noun phrases, while developing a range of writing skills.

As Mathematicians we will be revisiting our number skills to 20. We will also be looking at how to add three addends together successfully, using patterns and number bonds.

As Scientists we will learn about living things and their habitats. We will explore what plants and animals need to survive, how living things are suited to their habitats and how food chains show where animals get their food.

As Geographers we will learn about hot and cold climates around the world. We will identify continents, countries and key features on a world map, including the Equator and the Poles, and compare life in the UK with life in Kenya.

As Artists/design technologists we will develop our drawing and design skills by exploring tone, texture and mark-making. We will experiment with different materials and techniques, refining our artwork and learning how artists use tone to create effect.

As Musicians we will explore rhythm, dynamics and pulse through African-themed music. We will practise call and response patterns, play instruments together in time and create and perform our own musical compositions.

In PE we will be focusing on dance, which includes putting together a sequence with music based on the theme 'explorers'. We are also completing a dodging unit, where we are learning how to use our feet and bodies to dodge.

In RE we will explore the theme of gratitude. We will learn how Christians and Hindus show thanks, discover how harvest is celebrated and reflect on why being thankful is important to many people.

In RSE we will explore different emotions and how they can change. We will learn ways to support our wellbeing, understand what helps us feel calm and happy, and identify trusted adults who can help us with difficult feelings.
